

## KOEBELE WOULD COME.

## THE SCALE-DESTROYER AND HIS TERMS.

A Chance to Exterminate our Fruit Tree and Rose Bush Pests for About \$15,000.

The following letter has been received by Commissioner Marsden from Professor Albert Koebele in answer to a request that he state the terms upon which he would be willing to come to Hawaii for the purpose of destroying our insect pests:

ALAMEDA, Cal., August 12, 1893.  
HON. J. MARSDEN, Commissioner of Agriculture and Forestry, Honolulu, H. I.  
My Dear Sir: I have your favor, and reply at once. I should require a salary of \$3,000 per year for a term of three years. Out of this I would pay hotel bills and all other personal expenses; other expenses—such as material, freight, steamer, railroad fares and items—to be paid by you.

I would commence work here, collect and send such beneficial insects as are wanted for your scale pests. Would have to visit Australia, New South Wales and Queensland, at which place I would be kept probably one year or so. The Fiji and Samoan islands would have to be searched for fungoid destructive to scales, as well as beneficial insects.

I would do all work personally, and you will have to receive the insects as they come and liberate upon such scales as directed at Honolulu. After these become numerous they can easily be sent to all the other islands.

A couple of trips may have to be made to Queensland from Sydney, at which place I would have an agent to receive the material, place the same in cool chamber and ship by outgoing steamer. It is likely that other trips would have to be made to China and Japan, from where insects could be sent so conveniently and where no doubt many valuable and predaceous insects could be found. In fact, the trip to Japan could be made first, since most of the scales of your islands are found in that country and no doubt have their proper enemies there. You know about what these trips would cost. All in all you may figure on about \$5,000 per year, or \$15,000 for the term of three years, and you can positively be assured that we would get more than enough enemies for all your scale pests.

Must leave on a trip south, and will send the toads on return.

Respectfully yours,  
ALBERT KOEBELE.

## OUR SAN FRANCISCO LETTER.

Pacific Coast Sympathy Nearly Unanimous for Annexation.

SAN FRANCISCO, August 18.—As far as the annexation question of the Hawaiian Islands is concerned it becomes more plain every day that, while Cleveland tried to play into the hands of the British Government until quite recently, he does not dare to go any further, and the probability is that before Congress is through with its extra session a vote will be taken favoring at least protection, if nothing more, with the ultimate view towards annexation of the former island-kingdom to the United States. The sympathy among the people of the Pacific Coast is almost unanimously for Hawaii as a future State of the Union, and Mr. Claus Spreckels is drawn into a somewhat ridiculous light on account of his failure of becoming instrumental in restoring the ex-Queen to her throne. He has repeatedly boasted of never having failed in whatever he undertook. The little scheme in question, however, is pretty sure to turn into dismal failure. He thinks that the sugar industry cannot exist without contract labor which prevails there, but which is forbidden in the United States. Previous to the rebellion, however, the Southern slaveowners talked in about the same strain in regard to slavery, and yet the majority of the Southern States produce to day, with free labor, two and three times as much cotton, sugar, tobacco and other products as they ever did before the curse of slavery was removed by force, and the planters are much more prosperous than their predecessors were, while many thousands of colored people and the descendants of former slaves have accumulated wealth, or at least a handsome competency, while their race was treated like beasts in times gone by.

There is considerable excitement and activity among all classes of people in this city, for that matter, all over the State and the coast, on account of what is called the Mid-winter Fair, which is to be a continuation of the Chicago exhibition, and will last from January 1 to July 1 of next year. Many exhibitors at the Chicago fair, especially the foreigners, are anxious to secure space for their exhibits in the San Francisco Fair buildings, provided that they are allowed to transport their goods hither in bond, which is very likely to be conceded to them. Liberal contributions to the enterprise flow in from all sides, and the directors are sanguine enough to expect the subscriptions to reach \$500,000 by the end of the present month. Thus far the prospects are quite favorable, and if the exhibition turns out to be a success the Pacific Coast bids fair to be largely benefited in point of commerce, industry and increase of general intercourse with the rest of the civilized world.

The Secretary of the Navy seems to be willing and even anxious that the navy yard of this coast, Mare Island, should become a first class depot and a place of rendezvous of men-of-war not only, but that extensive shops and iron works be built for the construction of vessels of every description. This

would do away with the great delay of vessels having to be built in Eastern ports and having to make the long voyage down the Atlantic and up the Pacific ocean.

The fruitcrop has been very abundant in California this year and the vineyardists do likewise look forward to a large harvest this fall. There is no lack of enterprising business men among us who seem to be determined that the produce of this State shall find a market in all parts of the globe in the form of wines, brandies, canned fruit, vegetables and fish.

The Geary bill, which provides for the deportation of Chinamen to their homes who have refused or failed to register their names, makes headway slowly in being carried out. A few days ago a solitary poor devil of a Mongolian was captured and put on board the steamer Rio de Janeiro, and his passage to Hongkong was paid by the Government. Just exactly how it happens that the authorities have thus far succeeded in finding one Celestial who failed to comply with the letter of the law is difficult to decipher when it is taken into consideration that there are about 70,000 Chinamen in California alone, but few of which number are known to have complied with the law.

In the face of the numerous bank failures and suspension of business houses in almost all parts of the Union our State has been very lucky and gives evidence of banking institutions here being conducted on a very substantial basis. The Pacific Bank and its branch, the People's Home Savings Bank, are the only institutions that had to close their doors. But close investigation has shown that the bank carried on business in a criminally reckless manner, loaning out many thousands of dollars, without any security whatsoever, to perfectly irresponsible persons.

## BADLY DISTANCED.

The Monowai Gets Left by the Miowera.

A comparison of the last trips of the Miowera and Monowai will show that the Spreckels line is not in it with the new Vancouver one in the matter of speed and that if "the old man" has an eye to future subsidies he will have to substitute new and faster vessels for his present lot of old tubs.

The Miowera left Vancouver at 7 A. M. on August 17th, and Victoria at 4 P. M. of the same day, arriving at the wharf in Honolulu on the 24th at 5 P. M. Actual time on the trip 6 days and 10 hours.

The Monowai left San Francisco on August 18th at 3 P. M., and tied up to the Honolulu wharf at 9 A. M. on the 25th, her time being 6 days and 18 hours from dock to dock.

From the above it can be readily seen that in a voyage of nearly 2,450 miles the Miowera beat the Monowai eight hours while the latter was steaming 2,100 miles only. Captain Stott of the Miowera stated while here that he expected to beat the Monowai to Sydney by three or four days, and from the above showing there is no reason why his expectations should not be realized.

## Circuit Court Notes.

In the appeal case of Che Pang and Young Yat, convicted of smoking opium by Judge Foster, the prosecution entered a *nolle prosequi* against Che Pang this morning. Young Yat pleaded guilty and was sentenced to one month's imprisonment.

Judge Whiting was occupied this morning in hearing the petition of Wanika, by her father, for the annulment of her marriage to Kipu. The eloquent, marriage and subsequent efforts of the girl's father to keep the youthful couple apart have already been detailed in these columns.

## Electrical Goods.

Messrs. E. O. Hall & Sons have recently imported a large quantity of electrical goods, machinery and fixtures, together with other articles in their line. By the Discovery 39 cases of wire and 7 rolls of leather were received, and by the Monowai 19 packages of electrical machinery, 38 packages of fixtures and 18 cases of paints, etc., most of which has not appeared on the printed manifest.

## Saturday Concert.

The regular Saturday afternoon concert will be given by the Hawaiian band this afternoon at Emma Square at 4:30, with the following program:

1. March—"Semper Fidelis".
2. Overture—"Café de Bagdad".
3. Finale—"Belshazzar".
4. Selection—"Pirates of Penzance".
5. Gavotte—"The Little Marquis".
6. Waltz—"The Sultan".

## Teachers for Kawaiahaeo.

Miss Ida N. Pope, principal of the Kawaiahaeo Seminary, returned yesterday from a trip to Ohio, and was accompanied with the following young lady pedagogues, who will assist her in teaching for the next three years: Misses M. R. Kinny, L. W. Kinny, E. E. Gillam, Jennie Deuser, Bertha Sears, P. Bella Davidson, M. Dice and Nora Sturgeon, the latter being accompanied by her mother.

## The Leper Outlaw.

The Kauai steamers brought no special news of the outlaw Koolau. He is still in hiding between Mana and Hanalei, probably in Wainiha valley, with the number of other lepers there. He was down in Hanalei last week and stayed over night in order to get medicine for his child who is sick.

## POLICE COURT MATTERS.

The Usual Assortment of Drunks and Opium Fiends Appear.

Yuen San, an innocent-looking celestial, was convicted of smoking opium and to pay a fine of \$50 and costs.

A wahine, who rejoices in the name of Annie—not "Gentle Annie" by any means, according to the testimony of Captain Parker, who said that she was very drunk and noisy and it required several men to get her into a cell last night—was fined \$6 and costs.

Idiah pleaded guilty to disturbing the peace by firing off a revolver contrary to the provisions of chapter 37 of the Penal Code, and was reprimanded and discharged.

Three other opium cases and other minor charges went over to next week, and the Court adjourned for the week.

## An Opium Seizure.

A large quantity of opium which came down on the S. N. Castle in salmon barrels is said to have found its way to the home of Lydia Chapman, on Punchbowl street. From there it was sent in trunks to three places in and about the city. One of these was the store of Yuen Fat Chung, on the premises of Ah Swang. Captain Parker raided the store last night, taking 170 tins and arresting the two Chinese. The Mrs. Chapman involved was a searcher employed in the Customs House under Cleghorn and Reform.

## Hawaiian Sportsmen's Association.

There will be a meeting of the members of the Hawaiian Sportsmen's Association on Wednesday next at 7:30 P. M. at the Hawaiian Hotel for the purpose of enrollment of members, etc. It will be followed by a meeting of the Board of Directors, in which the necessary business details of the organization will be gone into. The club has a large, enthusiastic and influential membership.

## Those Leprous Curs.

A great many leprosy dogs still congregate about the fish market. Some of them are nearly hairless and are covered with sores. It is reported to the STAR that these animals sleep at night on the counters from which fish and meat are sold by day. None of them are licensed and all ought to be killed at sight.

## New Appointments.

Marshal Hitchcock, with the approval of the Attorney-General, has appointed James A. Low jailer at Oahu prison, and David P. Lawrence assistant-jailer. There were a large number of applications on file for both positions.

## FLOTSAM AND JETSAM.

## TERN HALCYON LEAVES FOR EUREKA.

Bishop and Pele in From Leeward—Waialeale From Lahaina—Marine News To-day.

The following is taken from the San Francisco Chronicle of the 18th: "The United States cruiser Boston, now at Honolulu, is in a bad way, if a letter lately received is anything to go by. The missile states that the yoke of the propeller is cracked; that the war vessel is badly in need of other repairs; that the bottom has an immense amount of barnacles and fungi clinging to it. It is also stated that the iron hull is becoming pitted. The writer says that the entire ship's company expect to see the Boston return to this port within a month. From advices some of the officers received from Washington, an impression has got out that the officers and crew of the Boston will all be transferred to the new cruiser Olympia, now approaching completion. Further, that the Boston will temporarily go out of commission while needed repairs are being made. These, it is expected, will take up at least four months."

"Referring to the United States war vessel Adams, also at Honolulu, the writer says that the ship will need nearly a full crew before she can get away from that port. Desertions are not only numerous, but constantly occurring. The reason given is that the crew are overworked, and claim that the weather is too hot to stand so much unnecessary exercise."

The Philadelphia has left Valparaiso for Callao, where she will receive orders directing her to sail for Honolulu instead of Samoa.

The steamer Bishop loaded a lot of paddy at Wainiha, near Hanalei, yesterday. This is usually a very stormy landing, and it is very interesting that steamers attempt to load or land freight. The rice plantations there, which are very extensive, are at a consequent disadvantage.

The next steamer for the coast will be the Warrimoo on the 31st to Vancouver. The next vessel for San Francisco will be the Australia on September 13th.

Both the Leahi and Mary Winkelman are loading lumber at Humboldt bay for this port.

The Hawaiian ships John Era and Hawaiian Isles arrived August 7th at Port Pirie.

The Pele unloaded her cargo of Makaweli sugar into the Irwin this morning.

The Belgic is advertised to leave Yokohama to-day, but will not stop at this port.

A busy day along the docks, and the leeward steamers nearly all in port.

The steamer Claudine is due from Maui via ports to-morrow morning.

The schooner Mary E. Foster is due from Makaweli to-morrow.

The tern Halcyon left at noon to-day for Eureka in ballast.

The American bark Amy Turner has arrived at Manila.

The tern Halcyon sailed for the coast in ballast to-day.
